26th June 2019

Dear Parents/Carers

With effect from September 2019 the school tie design will revert to black and red stripes (no house colours) with the school logo on the bottom. These will be available to buy online from our usual uniform suppliers Sportswear International, priced at £5.95.

We appreciate that not all our students will need a new tie in September, therefore they will be rolled out as compulsory to New Year 7 students from September and will filter through to the rest of the school as students need to replace them. The new tie is of very high quality and offers excellent value for money. It is available to buy now by following the link on the Uniform tab on the school website to access Sportswear International's website.

In the event of an emergency where ties are misplaced and a replacement required at short notice, pupils should go to Student Services where a new one may be bought for the same price. Please note that school will only hold a small stock these and all none urgent requirements should be made using our uniform supplier.

We would like to take the opportunity to stress that **school uniform is not optional** and we intend to continue working hard to build on being ever more consistent on the wearing of appropriate uniform. Attached is a reminder about school uniform and PE Kit requirements, which clearly states what is and isn't permissible.

Students who attend school in the wrong uniform will be isolated and sent home if the situation cannot be rectified.

If you have genuine issues regarding providing the right uniform for your son/daughter please contact the Head of Year or Form Tutor.

Thank you for your ongoing support and cooperation.

Mrs L Harrison
Assistant Head – Behaviour and Student Development
